

PRESENTATION:

A new age of biotechnology, genetic engineering, regenerative medicine and important breakthroughs in medical procedures and research is dawning. The tissue and cell donation have enabled the development of a health care field which has improved the quality of life of numerous patients. As its success relies on the staff professionalism, all personnel involved in tissue and cell donation should be appropriately qualified and able to access continuing knowledge.

TPM has been providing for years academic training courses on tissue banking in compliance with the agreed professional requirements, current practices and recognized standards of proficiency in the field.

OBJECTIVES

- To respond to a growing demand of tissue bank professionals for continuing education in tissue banking and cell therapy
- To provide tissue banking and cell therapy training courses in compliance with the agreed professional requirements, current practices and recognized standards of proficiency in the field
- To develop a dynamic tissue banking network, adapted to the current needs of the transplantation society.

ADDRESSED TO

Professionals working in tissue and cell recovery, processing, storage, quality control and distribution.

REGISTRATION PROCESS

Registration request submissions can be performed using our web-based registration form or by e-mail.

MINIMUM REQUIREMENTS TO ENROL AN ON-LINE COURSE

- Processor 800 MHz Pentium 4 (PC) / Processor G4 1GHz (Macintosh)
- 256 MB RAM
- Microsoft Internet 7 Explorer (PC) or Mozilla Firefox 3 Browsers (PC / Macintosh)
- Adobe Flash 10
- JavaScript
- Cookies activated

RECOMMENDED SOFTWARE (you will find the links to download this software in the course classroom):

- QuickTime 7.0
- Adobe Acrobat 6 Reader
- Java Plug-in

International on-line Course in Tissue Banking, Cell Therapy & Regenerative Medicine

11TH EDITION
Working language:
English

Transplant
Procurement
Management

www.tpm.org

ORGANIZED BY:

Transplant Procurement Management (TPM) – Donation and Transplantation Institute (DTI)
Parc Científic de Barcelona (PCB)

IN COLLABORATION WITH:

American Association of Tissue Banks (AATB)
Asociación Española de Bancos de Tejidos (AEBT)
British Association for Tissue Banking (BATB)
Centro Nazionale per i Trapianti (CNT)
European Association of Tissue Banks (EATB)
Japanese Society for Tissue Transplantation (JSTT)
Latin American Association of Tissue Banking (ALaBaT)
National Centre of Cell and Tissue Banking - Medical University of Warsaw
Organización Nacional de Trasplantes (ONT)
Organització Catalana de Trasplantaments (OCATT)
Transplantation Society of Australia and New Zealand (TSANZ)

DIRECTORS

Scott Brubaker
Chief Policy Officer at AATB, McLean, Virginia, USA

Martí Manyalich
Transplantation Counselor. Medical Direction. Hospital Clinic, Barcelona, Spain

Aurora Navarro
Medical Director of Tissue Bank (BST), Barcelona, Spain

Jacinto Sánchez Ibáñez
Director of Regional Transplant Coordination Office of Galicia, Spain

FACULTY

Alberto Bolgiani (Argentina)
Scott Brubaker (USA)
Josep M Canals (Spain)
Denis Dufrane (Belgium)
Edison Duque (Colombia)
Deirdre Fehily (Italy)
Ed Ferreol (USA)
Marisa Herson (Australia)
Dave Korroch (USA)
Lloyd Wolfenbarger (USA)

EDUCATIONAL COORDINATION

Melania Istrate
Gloria Páez

EDUCATIONAL METHOD

The E-learning method used throughout the course promotes continuous building of knowledge and development of skills, through learning by doing methodologies. It boosts great interactivity in the learning environment created and involves the development of a flexible, interactive and bidirectional teaching and learning action.

Learning materials and resources along with practical activities are available during the course.

CONTENTS

- Tissue donor detection and selection criteria
- Ethical and regulatory issues in tissue banking
- Quality assurance and quality control
- Tissue banking general organisation
- Sterilization of tissue grafts
- Eye banking
- Vascular banking
- Musculoskeletal banking
- Skin banking
- Human amnion banking
- Stem cells and cord blood banking
- Gamete banking
- Tissue living donation
- Cell therapy
- Regenerative medicine

LANGUAGE

The working language is English.

ACADEMIC QUALIFICATION AND ECTS CREDITS

After the successful completion of the course the participants receive a diploma issued by the University of Barcelona, Spain. The credits awarded for a successful completion of this course add up to 10 corresponding to a workload of 250 hours in total.

LENGTH AND DATES

2 months: April 2nd – June 2nd 2013.

COURSE FEES:

Early bird fee: 1.100 Euro

Registration and payment deadline: 1st of March, 2013

Regular course fee: 1.300 Euro

Registration and payment deadline: 2nd of April, 2013

*Fee reduction will be applied for groups of 2 or more participants from the same institution

International on-line Course in Tissue Banking, Cell Therapy & Regenerative Medicine APPLICATION FORM

CONTACT DETAILS
